County Asks \$2,350 In Red Cross Drive
Appomattox County has a quota of \$2,350.00 in the current drive of the American Red Cross, and an intensive effort is being made to raise this quota during March. This month has been proclaimed by President Truman as Red Cross month and campaigns for the organization are being conducted on a national scale. In this county, the appeal is being made through the churches, business and community organizations. G. B. Buchanan is leading the solicitation in the town of Appomattox, and Judge J. W. Flood is organizing the effort in the other communities. Under the leadership of the Rev. F. Jones as county drive chairman, Mrs. Jesslyn H. Drinkard is treasurer, and contributions may be sent directly to her.

Meaning of Soil Program
The Robert E. Lee Soil Conservation District is local subdivision of Virginia organized by farmers themselves through petition and referendum, chartered by the State Government and administered by a board of Supervisors chosen by the farmers of the district. This places the work of the district directly in the hands of those concerned. It means, in effect, that soil conservation practices are applied to a stable area instead of an individual farm.

Plan For Soil Conservation Payments
The international work of the Red Cross goes on through years of peace as well as through years of war. Where there is need, the "Great Mother" responds, through the funds given by the public.
